NOTE: Always turn the console power switch off when inserting or removing an ATARI® Game Program™ cartridge. This will protect the electronic components and prolong the life of your ATARI Video Computer System™ game. Manual, Program, and Audiovisual © 1978 ATARI, INC.

1. GAME PLAY

At the beginning of a game, the Timer Clock at the top center of the playfield begins counting down from 5:00. The clock ticks only during play and stops between plays. Press **game reset** to start a new game.

The left, or orange, player begins on offense. This is indicated by the small arrow under the Timer Clock. The number at top left is the orange player's score. The number at top right is the white player's score. The number to the left of the white player's score is the Down Indicator.

The question (?) beneath each player's score is a reminder to program your play, and will disappear

when you do so. The play automatically begins after both players have entered a play formation.

The offensive player has four "downs" or attempts to get the ball over the First Down Marker or the line shown on the screen. If the offense moves the ball over the First Down Marker, he receives another four downs. If the player scores, his opponent receives the ball and becomes the offensive team.

To stop your opponent from getting a first down or from scoring, you must "tackle" him by stopping his forward motion. Do this by maneuvering one of your players into his path and touching him.

2. USING THE CONTROLLERS

Use your Joystick Controllers with this ATARI® Game Program™ cartridge. Be sure the Joystick Controller cables are firmly plugged into the **RIGHT** and **LEFT CONTROLLER** jacks at the back of your ATARI Video Computer System™ game. Hold the Joystick with the red button to your upper left, toward the television screen. See *Section 3 of your owner's manual for further details.*

There are five offensive and five defensive formations. Use your Joystick to program the formation you wish to use (see **OFFENSIVE and DEFENSIVE PLAYS** sections). For a punt formation push the red controller button.

After the play begins, each player (in **GAME 1** and **2**) can control his men with the Joystick (Diagram refers to movement as you see it on your television screen). The offensive player controls only the ball carrier and can pass, (or punt from the punt formation), by pressing the red controller button.

The defensive player controls his

lineman with the Joystick, and when the red controller button is pressed, controls the defensive back.

All offensive plays can be pass plays, except when a "punt" play is set. Any player (including your opponent) is an eligible receiver. All passes must be made behind the "line of scrimmage" or the line on which the play started.

To punt, push the red controller button and leave the Joystick in the neutral position. After the play starts, push the red button again and your Quarterback will kick the ball. On a punt play only the defensive back can catch and return the ball. If the ball is not caught, the computer will randomly select the yardage or length of your kick.

In **GAMES 1** and **2**, the path of the ball on a pass or kick can be "steered" after it leaves the Quarterback by using the Joystick. You can steer the ball left or right only.

3. CONSOLE CONTROLS

GAME SELECT SWITCH

Use this switch to select the game number you wish to play. The game number appears at the upper left corner of the screen. (See **GAME VARIATIONS** for game numbers.)

GAME RESET SWITCH

Use this switch to start game play or to reset a game at any time. If the game number is on the screen when the game reset switch is pressed, the game number will disappear to make room for the player's scores.

DIFFICULTY SWITCHES

When placed in the **a** position your players cannot move from side to side as quickly as in the **b** position. This will give the more experienced player a handicap.

TV TYPE SWITCH

Set this switch to color if you have a color television set. Set it to **b-w** if you are playing the game in black and white.

4. SCORING

The offensive team scores a "touchdown" (seven points) by moving the ball past the opponent's goal line. The defensive team can score a "safety" (two points) by tackling the opponent behind his goal line. In addition, the defensive team gets the ball, after a safety is scored.

5. GAME VARIATIONS

GAME 1 - After programming your play, use the Joystick to control your players. The offensive player controls only the ball carrier and the flight of the pass or kick. The defensive player controls his lineman or, by holding the red controller button down, the defensive back.

The players will randomly follow the play as programmed when not controlled by your Joystick.

GAME 2 - In this game, when your players are not controlled by the Joystick, they will follow the play exactly as programmed. Use more strategy and try to outguess your opponent's plays.

GAME 3 - Program in your offensive and defensive plays and watch the computer run them out. Neither player can control the players' movements, but the offense can pass or kick the ball by pushing the red controller button.

6. OFFENSIVE PLAYS

- 1 SPLIT LEFT
- 2 TIGHT RIGHT
- 3 SPLIT RIGHT
- 4 TIGHT LEFT
- 5 PUNT

Right and left refers to how the teams are viewed on the playfield.

7. DEFENSIVE PLAYS

- 1 WIDE LEFT
- 2 TIGHT RIGHT
- 3 WIDE RIGHT
- 4 TIGHT LEFT
- 5 DEEP

Right and left refers to how the teams are viewed on the playfield.
